For soy: Analysis of GMO

* The checklist for crops has to be filled in for each producer. It includes verification of social and HCV requirements. The HCV-verification form is filled in for a group of producers. If there is not any recognized certification for HCV, it is easier to use the HCV Verification Form.

This scheme only covers products certified according to EU regulation (834/2007) and according to USDA-NOP.

Other documentation, that also might be needed in particular cases, not included in the scheme:

Certificate of Inspection: If you are the "first importer" within the EU-common market.
