

2018-01-01

Recognized Systems for Certification or Supplier Evaluation, which fulfill KRAV's Extra Requirements for Social Responsibility.

You find the extra requirements in section 16.4 of KRAV's Standards 2018.

For questions or if you want KRAV to evaluate a System for Certification or Supplier Evaluation which is not in the list please contact regler@krav.se

KRAV's Extra Requirements for Social Responsibility are met by production certified according to the Systems for Certification or Supplier Evaluation below:

- **Bonsucro**
 - Production Standards Version 4.1.1 (2015) and 4.2 (2016)
 - Mass Balance Chain of Custody Standard version 4.1 (2016)Bonsucro is a standard only for sugarcane. All traceability levels are recognized.
- **BSCI Code of Conduct** version 1 (2014)
Only with the audit scope "Agricultural work environment" included.
- **Control Union Fair Choice Social and Fair Trade Standard** v.3.0 (2013) and v.3.1 (2018)
- **Ecocert ESR Standard** (Fairness, Solidarity and Responsibility) V3 (2013)
Replaced with Fair for Life/For Life from June 2017.
- **Fair for Life/For Life** Social & Fair Trade Certification Programme (v. 2013 and v. February 2017)
- **Fairtrade certified by FLO-Cert**
 - Fairtrade Standard for Hired Labor, v1.2 (2014)
 - Fairtrade Standard for Small Producer Organizations, v.1.4 (2011)
- **FairTSA** Fair Trade Sustainability Alliance v.3.20 (2014)
- **Fairtrade USA Standards Agricultural Production Standard** Version 1.0. (2017)
- **IBD Ecosocial Certification Program Fair Trade** 12th Edition (2015) and 15:th edition (2017)

- **IFOAM Standard for Organic Production and Processing** Version 2.0 (2014)
certified by IOAS accredited certification bodies. For list of IOAS accredited certification bodies please see: http://www.ioas.org/certification_body/?scheme=ifoam
- **Naturland** Standards on Production version 05/2017 and Naturland Fair Trade Standards version, 05/2017
- **ProTerra Standard** v.3.0 (2014)
- **Rainforest Alliance** SAN -Sustainable Agriculture Standard (2017)
All traceability levels are recognized.
- **Round Table on Responsible Soy** Version 3.0 (2016) and 3.1 (2017)
Recognition is valid for Module A – Mass balance and Module B – Segregated Chain of Custody. Module C – Multi-site has not been evaluated.
- **RSPO** Principles and Criteria for the Production of Sustainable Palm Oil (2013)
All traceability levels are recognized.
- **SA8000** Social Accountability 8000 (2014)
- **UTZ**
 - Core Code of Conduct for Individual and Multi-Site Certification v. 1.1 (2015)
 - Core Code of Conduct for Group and Multi-Group Certification v.1.1 (2015)All traceability levels are recognized.

Not recognized Standards from 2018

Standards that previously have been recognized.

- *KRAV-certified companies, which imported or brought in products based on recognized systems for certification or supplier evaluation in 2017, can continue to import or bring in these products from the same supplier up to and including 31 December 2018. For products not previously KRAV-certified and products imported or brought in via new suppliers, the actual list of Recognized Systems for Certification and Supplier Evaluation applies.*
- **Sedex/SMETA** The Sedex Members Ethical Trade Audit (SMETA) Measurement Criteria, Version 5.0 (2014)

Motivation: The system does not include any audit in the primary production. If the extra requirements are verified in the primary production, e.g. by the KRAV checklists, the Sedex/SMETA certification is valid for processing, packaging and handling.

- **SIZA Sustainability Initiative of South Africa (SIZA) Standard, V.5 (2016)**

Motivation: The system does not include any audit in the primary production. If the extra requirements are verified in the primary production, e.g. by the KRAV checklists, the SIZA certification is valid for processing, packaging and handling.

Evaluated but not recognized Standards for social responsibility

Standards which have criteria for social responsibility, where the standards or the system does not fulfill KRAVs criteria for recognition.

- **Bio Suisse standard for Production, Processing and Marketing of “Bud” products (2016 and 2017)**

Motivation: Based on a risk assessment, companies with less than 20 employees can be excluded from control, something that is not consistent with the KRAV standard.

- **Eco Vadis Supplier Sustainability Rating (version 2017)**

Motivation: The system does not include any physical audits.

- **GRASP GLOBAL G.A.P. Risk Assessment on Social Practice (GRASP) Checklist – Version 1.3 (2015)**

Motivation: The standard does not have criteria corresponding to KRAV requirements 16.4.2-4 and 16.4.6. A policy covering these requirements is included in the standard but not audited.

- **IAFN International Standard for Forest Garden Products (FGP) Version Jan 2014**

Motivation: The system is not updated. There are only expired certificates on the website.

- **SGF-AIJN Code of Conduct (2015)**

Motivation: It is not clear that the system includes external audits.

- **The Wieta Ethical Code of Best Practice, Version 3.0 (2016)**

Motivation: The certification system connected to the standard does not require that all primary producers fulfill the criteria.
