The verification shall be performed annually and this document is valid for 18 months from the date of signing.

Ways to Verify the Extra Requirements

This checklist shall be used to verify KRAV's extra requirements in chapter 16 for the type of production mentioned above.

A prerequisite is that the operator is certified according to Regulation (EC) 834/2007 or to equivalent production rules in accordance with Article 33 in (EC) 834/2007. The product shall always be accompanied by a valid EU-certificate.

You will find more information about KRAVs extra requirements at our webpage: www.krav.se/how-suppliers-can-fulfill-kravs-extra-requirements, and the KRAV Standards at: www.krav.se/krav-standards

The checklist shall be filled in and signed either by:

1. A person working as auditor at a certification body accredited for organic certification.
- or
2. A person with experience from auditing according to standards for organic production or social responsibility, assigned by a KRAV-certified importer. It must be done by a person outside the company that is being audited.

KRAV has verification agreements with a number of certification bodies that can offer verification of KRAVs Extra Requirements, although any accredited Certification Body can use the checklists.

You will find a list of certification bodies with verification agreements here: www.krav.se/how-suppliers-can-fulfill-kravs-extra-requirements

The Operator must not use the KRAV-label, or state that the production is KRAV-certified. He or she can only state that KRAV's extra requirements in chapter 16 (for the type of production that the checklist covers) have been verified.

The checklist is only valid as verification when all extra requirements are fulfilled. When asked for, the verification notes under each question, must be filled in.

Natural Behaviour

- Cows should be able to calve separately from other cows.
 - If calving takes place outside, there must be adequate space and the cows themselves must be able to get away from the herd.
 - If the cows are kept on deep litter beds indoors, calving can take place in the herd only if the animals are monitored so that the mother animal and calf can be separated, if necessary, from the rest of the herd, at the latest, immediately in conjunction with birth.
 - If the cows are kept indoors in other ways, they must calve in a calving pen.

- Calves must suckle for at least one day, i.e. at least 24 hours.

Verified through (e.g. documentation, ocular inspection):.....

Grazing

* During the growing season, cattle must have access to pasture during most of the day. Temporary indoor periods are permitted in the following cases: sickness, severe insect infestation, calving, extreme weather, mating, artificial insemination or for a maximum of two weeks before slaughter.

Cattle younger than six months as well as bulls for breeding must have outdoor access during the growing season, but do not need to be provided with pasturage.

Verified through (e.g. documentation, ocular inspection):.....

.....

Feed Self-sufficiency

- At least 75 % of the feed must be produced on the keeper's farm or in cooperation with one or more other organic farms. Feed can also be produced and sold to a feed supplier and bought from the supplier. If cooperation with other organic farmers takes place, those who produce feed must receive a corresponding amount of manure from the livestock operation.

Verified through (e.g. documentation, ocular inspection):.....

.....

Mutilations

- During castration and dehorning, anesthesia and analgesia must be used. The procedure must be carried out before the calves are eight weeks old. No mutilation other than castration and dehorning are permissible.

Verified through (e.g. documentation, ocular inspection):.....

.....

Social Responsibility in Primary Production

- The production is situated in a country where policies on social justice are included in national legislation, and are exempt from the documentation requirement. (The exempted areas and countries are the European Union, EEA, Switzerland, USA, Canada, Australia, New Zealand and Japan.)
- The operator has less than 10 employees, and are exempt from the documentation requirement.
- The operator is certified according to a KRAV recognized standard for social responsibility or evaluated according to a KRAV recognized system for supplier evaluation. (Certificate or corresponding document shall be sent to the buyer.)
