The verification shall be performed annually and this document is valid for 18 months from the date of signing.

Ways to Verify the Extra Requirements

This checklist shall be used to verify KRAV's extra requirements in chapter 16 for the type of production mentioned above.

A prerequisite is that the operator is certified according to Regulation (EC) 834/2007 or to equivalent production rules in accordance with Article 33 in (EC) 834/2007. The product shall always be accompanied by a valid EU-certificate.

You will find more information about KRAV's extra requirements at our webpage: www.krav.se/how-suppliers-can-fulfill-kravs-extra-requirements, and the KRAV Standards at: www.krav.se/krav-standards

The checklist shall be filled in and signed either by:

1. A person working as auditor at a certification body accredited for organic certification.

or

2. A person with experience from auditing according to standards for organic production or social responsibility, assigned by a KRAV-certified importer. It must be done by a person outside the company that is being audited.

KRAV has verification agreements with a number of certification bodies that can offer verification of KRAV's Extra Requirements, although any accredited Certification Body can use the checklists.

You will find a list of certification bodies with verification agreements here: www.krav.se/how-suppliers-can-fulfill-kravs-extra-requirements

The Operator must not use the KRAV-label, or state that the production is KRAV-certified. He or she can only state that KRAV's extra requirements in chapter 16 (for the type of production that the checklist covers) have been verified.

The checklist is only valid as verification when all extra requirements are fulfilled. When asked for, the verification notes under each question, must be filled in.

For questions please contact: food@krav.se

Social Responsibility in Primary Production

- The production is situated in a country where policies on social justice are included in national legislation, and are exempt from the documentation requirement. (The exempted areas and countries are the European Union, EEA, Switzerland, USA, Canada, Australia, New Zealand and Japan.)
- The operator has less than 10 employees, and are exempt from the documentation requirement.
- The operator is certified according to a KRAV recognized standard for social responsibility or evaluated according to a KRAV recognized system for supplier evaluation. (Certificate or corresponding document shall be sent to the buyer.)

If any of the conditions above are fulfilled, you do not have to fill in the checklist for social responsibility below.

16.7.4 Protection of Natural Areas with High Conservation Value

The standard only applies to sugarcane, oil palm, soy, coffee, cocoa or coconuts. It can also be verified through the separate verification form for this requirement, see <http://www.krav.se/extra-requirements-all-products>

The standard is not applicable; i.e. the production is not sugarcane, oil palm, soy, coffee, cocoa or coconuts.

You shall not fill in the question below if marked.

Fulfilled

Not fulfilled

Cultivation or other enduring changes in areas with natural ecosystems with a high conservation value (HCV) is prohibited. The standard applies to cultivation of those crops that KRAV considers to be at the highest risk for exploitation.

- For oil palm and soy it must be verified that this has not taken place in the last five years.
- For sugar cane, coffee, cocoa or coconut palm it must be verified that this has not taken place since the certification began.

Verified through:

I have a good local knowledge, and can testify that there are no areas with High Conservation Values in the land used for growing the actual crop.

I have made a comparison between grower maps and maps over areas with High Conservation Values.

I have visited the farms/areas where the crops are grown, and can verify that the land have been farmed for more than five years.

I have visited the farms/areas where the crops are grown, and can verify that there has not been any cultivation of areas with a high conservation value since the operator is certified (applies to sugar cane, coffee, cocoa or coconut palm).

Other alternative. Please describe:

Detailed Information on Non-Compliances

If any of the extra requirements are not fulfilled, please describe what's deviating. If appropriate, you are encouraged to make recommendations on possible measures. This may be useful information for the operator and the KRAV-certified importer.

Please observe that the checklist shall not be signed at the front page when one or more requirements are not fulfilled.
