Recognized Systems for Certification or Supplier Evaluation, which fulfill KRAV’s Extra Requirements for Social Responsibility.

You find the extra requirements in section 16.4 of KRAV’s Standards 2019-20.

For questions or if you want KRAV to evaluate a System for Certification or Supplier Evaluation which is not in the list please contact food@krav.se

---

KRAV’s Extra Requirements for Social Responsibility are met by production certified according to the Systems for Certification or Supplier Evaluation below:

- **Bonsucro**
  - Production Standards Version 4.2 (2016)
  - Bonsucro Production Standard Smallholder Farmers Version 1.0 (2018)
  Bonsucro is a standard only for sugarcane. All traceability levels are recognized.

- **BSCI Code of Conduct** version 1 (2014)
  Only when primary production is included in monitoring and auditing.

- **Control Union Fair Choice Social and Fair Trade Standard** v.3.0 (2013) and v.3.1 (2018)

- **Ecovalia** Normas Ecovalia v.02 (2014)

- **Fair for Life/For Life** Social & Fair Trade Certification Programme (v. February 2017)

- **Fairtrade certified by FLO-Cert**
  - Fairtrade Standard for Hired Labor, v1.2 (2014) and v 1.3 (2014)

- **FairTSA**
  - Fair Trade Sustainability Alliance v.3.20 (2014)
  - Social responsibility Certification under FairTSA Version 1.2 (12/11/2018)
- **Fairtrade USA Agricultural Production Standard** Version 1.0. (2017)

- **IFOAM Standard for Organic Production and Processing** Version 2.0 (2014) certified by IOAS accredited certification bodies. (Includes aquaculture.)

- **Naturland** Standards on Production version 05/2017 and 06/2018 Naturland Fair Standards version 05/2017

- **ProTerra Standard** v.3.0 (2014)

- **Rainforest Alliance** SAN - Sustainable Agriculture Standard (2017) All traceability levels are recognized.

- **Round Table on Responsible Soy** Version 3.0 (2016) and 3.1 (2017) All traceability levels are recognized.

- **RSPO** Principles and Criteria for the Production of Sustainable Palm Oil (2013) and (2018) All traceability levels are recognized.

- **SA8000** Social Accountability 8000 (2014)

  - Core Code of Conduct for Group and Multi-Group Certification v.1.1 (2015) All traceability levels are recognized.

**Systems Recognized only for Processing, Packaging and Handling**
These systems for supplier evaluation do not include audit in the primary production. For a product to be KRAV-certified the extra requirements must be verified in the primary production by other means, e.g. by the KRAV checklists.

- **Sedex/SMETA** The Sedex Members Ethical Trade Audit (SMETA) Measurement Criteria, Version 6.0

- **SIZA** Sustainability Initiative of South Africa (SIZA) Standard, V.5 (2016)
Evaluated but not Recognized Standards for Social Responsibility

*Standards that have criteria for social responsibility, where the standards or the system does not fulfill KRAVs criteria for recognition.*

  
  **Motivation:** Based on a risk assessment, companies with less than 20 employees can be excluded from control, something that is not consistent with the KRAV standard.

- **Eco Vadis Supplier Sustainability Rating (version 2017)**
  
  **Motivation:** The system does not include any physical audits.

  
  **Motivation:** The standard does not have criteria corresponding to KRAV requirements 16.4.2-4 and 16.4.6. A policy covering these requirements is included in the standard but not audited.

- **IAFN International Standard for Forest Garden Products (FGP) Version Jan 2014**
  
  **Motivation:** The system is not updated. There are only expired certificates on the website.

  
  **Motivation:** It is not clear that the system includes external audits.

  
  **Motivation:** The standards permits small producers to have employees, and the standard does not include social responsibility for these. The control system permits certification without audit at the farm for the first two years.

- **The Wieta Ethical Code of Best Practice, Version 3.0 (2016)**
  
  **Motivation:** The certification system connected to the standard does not require that all primary producers fulfill the criteria.
